THE ANNALS OF APPLIED BIOLOGY

EDITED BY

R. W. MARSH

AND

I. THOMAS

VOLUME 34

CAMBRIDGE
AT THE UNIVERSITY PRESS
1947

Printed in Great Britain at the University Press, Cambridge
(Brooke Crutchley, University Printer)
and published by the Cambridge University Press
(Cambridge, and Bentley House, London)
Agents for U.S.A.: The University of Chicago Press
Canada and India: Macmillan

CONTENTS

No. 1 (February 1947)

PAGE

1. Potato haulm destruction with special reference to the use of tar acid compounds. By A. R. Wilson, A. E. W. Boyd, J. G. Mitchell and W. S. Greaves. (With 1 Text-figure) 1

2. Experiments with soils used for casing beds of the cultivated mushroom, *Psalliota campestris*. By N. H. Pizer and W. E. Leaver . . . 34

3. Observations on the pathogenicity of *Calonectria rigidiuscula* (Berk. & Br.) Sacc. on *Theobroma cacao* L. By S. H. Crowdy. (With Plates 1 and 2) 45

4. Notes on a virus disease of cacao. By R. E. D. Baker and W. T. Dale. (With Plate 3 and 6 Text-figures) 60

5. Wireworm populations in relation to crop production. II. Population changes in grassland. By D. M. Ross, J. H. Stapley and G. F. Cockbill. (With 3 Text-figures) 66

6. Wireworm populations in relation to crop production. III. Population changes after summer ploughing. By G. F. Cockbill, D. M. Ross and J. H. Stapley. (With 4 Text-figures) 83

7. Wireworm populations in relation to crop production. IV. Population changes during a bare fallow. By J. H. Stapley, D. M. Ross and G. F. Cockbill. (With 3 Text-figures) 95

8. *Annona* species as insecticides. By S. H. Harper, C. Potter and (Mrs) E. M. Gillham. (With 2 Text-figures) 104

9. Thiocyanate insecticides: the relation between knock-down activity and chemical constitution. By J. F. Grove and H. H. S. Bovingdon . 113

10. *Primula obconica*, a carrier of tobacco necrosis viruses. By F. C. Bawden and B. Kassanis 127

11. The effect of plant extracts on the germination of the conidia of *Venturia inaequalis*. By K. Gilliver 136

12. Proceedings of the Association of Applied Biologists: 4 October 1946. Symposium on the significance of trace elements in plants and animals: General introduction. By Sir Edward J. Salisbury. Visual diagnosis of mineral deficiencies of plants. By T. Wallace. Chemical tissue tests. By D. J. D. Nicholas. The use of leaf analysis, plant injection and curative treatment for the determination of mineral deficiency in plants. By W. A. Roach. Trace elements in relation to health of livestock. By H. H. Green . 144

13. Reviews 166

No. 2 (May 1947)

PAGE

1. The field of research in preventive entomology. By C. B. Williams. Address of the President of the Association of Applied Biologists, delivered to the Annual Meeting on Friday, 21 February 1947. (With frontispiece) 175

2. The behaviour of adult click beetles of the genus *Agriotes* (*A. obscurus* L., *A. lineatus* L. and *A. sputator* L.). By A. Roebuck, L. Broadbent and R. F. W. Redman. (With 4 Text-figures) 186

3. Observations on the life cycle of *Xyleborus fornicatus* Eichoff in artificial culture. By C. H. Gadd. (With 1 Text-figure) 197

4. The protective effect of arsenic and derris dips against the sheep tick, *Ixodes ricinus* L. By J. MacLeod. (With 7 Text-figures) 207

5. The formation of insecticidal films on building materials. II. Tests of the efficiency of various types of pretreatment. By P. S. Hewlett and E. A. Parkin. (With 1 Text-figure) 224

6. A dipping apparatus for estimating the toxicity of insecticides in liquid media. By A. H. McIntosh. (With Plate 4 and 3 Text-figures) . . 233

7. Calcium chloroacetate as a soil dressing against beet eelworm, *Heterodera schachtii* Schmidt, with certain additional observations. By D. Price Jones 240

8. Some observations on damage to potatoes by slugs. By D. C. Thomas 246

9. The competition between barley and certain weeds under controlled conditions. II. Competition with *Holcus mollis*. By Harold H. Mann and T. W. Barnes. (With Plate 5) 252

10. The parasitism of *Striga hermonthica* Benth. on leguminous plants. By F. W. Andrews. (With 2 Text-figures) 267

11. The role of antibiotics in the decomposition of sawdust. I. Inhibition of the growth of cellulose-decomposing bacteria. By S. E. Jacobs and A. W. Marsden 276

12. The influence of light intensity on the susceptibility of plants to certain viruses. By F. C. Bawden and F. M. Roberts. (With Plate 6) . 286

13. Proceedings of the Association of Applied Biologists: 8 November 1946. Rodent control in towns. By S. A. Barnett. (With 2 Text-figures) 297

14. Reviews 304

No. 3 (September 1947)

PAGE

1. Studies on the relationships between earthworms and soil fertility. I. Biological studies in the field. By A. C. Evans and W. J. McL. Guild. (With 10 Text-figures) 307

2. An ecological study of the enchytraeid worm population of sewage bacteria beds. By T. B. Reynoldson. (With 1 Text-figure) . . . 331

3. The practical control of wireworm by γ-benzene hexachloride (Gammexane): comparisons with dichlorodiphenyltrichlorethane (D.D.T.). By H. R. Jameson, F. J. D. Thomas and R. C. Woodward 346

4. A direct-spray technique for the biological evaluation of pyrethrum-in-oil insecticides for use against stored product insects in warehouses. By P. S. Hewlett. (With Plate 7 and 6 Text-figures) 357

5. The relation between the size of plant and the spread of systemic diseases. I. A discussion of ideal cases and a new approach to problems of control. By J. E. van der Plank 376

6. Virus diseases of cacao in West Africa. I. Cacao viruses 1 A, 1 B, 1 C and 1 D. By A. F. Posnette. (With Plates 8 and 9 and 1 Text-figure) . 388

7. Virus diseases of cacao in West Africa. II. Cross-immunity experiments with viruses 1 A, 1 B and 1 C. By S. H. Crowdy and A. F. Posnette. (With 2 Text-figures) 403

8. Studies on dandelion yellow mosaic and other virus diseases of lettuce. By B. Kassanis. (With Plates 10 and 11) 412

9. Experiments on the effect of chlorinated nitrobenzenes on the sprouting of potato tubers. By W. Brown. (With Plate 12) . . . 422

10. Experiments on the effect of centimetre-length electromagnetic waves on wood-destroying fungi. By J. A. Macdonald 430

11. Proceedings of the Association of Applied Biologists: 21 March 1947. Symposium on biological problems of the leather industry: Some problems associated with collagen, reticulin and elastin in the skin. By Mary Dempsey and Marjorie E. Garrod. Some aspects of the surface chemistry of animal skin. By K. G. A. Pankhurst. Influences modifying the growth and quality of animal skin. By J. N. Turner. Mycological and entomological problems of the leather industry. By A. J. Musgrave. Bacteria in leather manufacture. By M. E. Robertson and B. M. Haines 435

12. Proceedings of the Association of Applied Biologists: 25 April 1947. Conversazione on research methods and equipment: List of exhibits . . 463

13. Report of the Council of the Association of Applied Biologists for the year 1946 465

14. Reviews 468

15. Accounts. 472

No. 4 (December 1947)

PAGE

1. Studies in the physiology of the onion plant. III. Further experiments on the effects of storage temperature and other factors on onions grown from sets. By O. V. S. Heath, M. Holdsworth, M. A. H. Tincker and F. C. Brown 473

2. The behaviour of some naturally occurring strains of potato virus *Y*. By F. C. Bawden and B. Kassanis. (With Plate 13) 503

3. The 'phloem necrosis' virus disease of tea in Ceylon. III. Further characterization of necrosis in the leaf. By T. E. T. Bond. (With Plate 14 and 7 Text-figures) 517

4. The development of internal boll disease of cotton in relation to time of infection. By E. O. Pearson. (With Plate 15 and 2 Text-figures) 527

5. Observations on take-all and eyespot diseases of wheat in Yorkshire. By I. F. Storey. (With 1 Text-figure) 546

6. Investigations on the gout fly (*Chlorops pumilionis* Bjerk.) in Devon and Cornwall. By A. H. R. Lilly. (With 5 Text-figures) . . . 551

7. Wireworms and the sugar-beet crop: field trials and observations. By D. Price Jones and F. G. W. Jones 562

8. The toxicities of three petroleum oils to the grain weevils. By P. S. Hewlett. (With 4 Text-figures) 575

9. Relation between particle size and shape of insecticidal suspensions and their contact toxicity. I. D.D.T. suspensions against *Tribolium castaneum* Hb. By A. H. McIntosh. (With Plate 16 and 7 Text-figures) 586

10. The ecology of the British species of *Psychoda* (Diptera: Psychodidae). By G. H. Satchell. (With 2 Text-figures) 611

11. Proceedings of the Association of Applied Biologists: 3 October 1947. Symposium on problems associated with the potato: Some observations on South American potatoes. By J. G. Hawkes. (With 4 Text-figures). Blight in relation to potato breeding. By W. Black. Some recent results of potato dry rot research. By A. E. W. Boyd . 622

12. List of members 637
